NORTH DAKOTA DECEMBER 1 POTATO STOCKS

FARGO, ND, December 12, 2014 – North Dakota growers, dealers, and processors held 17 million hundredweight (cwt) of potatoes in storage on December 1, according to USDA's National Agricultural Statistics Service. Current stocks represent 70 percent of the production. Total stocks are defined as all potatoes on hand, regardless of use, including those that will be lost through future shrinkage and dumping.
