

## Cash Receipts Review 2001

**Total Farm Receipts** for 2001 totaled \$4.25 billion, a gain of about \$430 million (11 percent) from the previous year. These receipts included returns for livestock and poultry, crops, government agricultural payments, farm forest products, and other farm related income. **Farm and Forestry Receipts** climbed to a record-high \$4.83 billion compared with \$4.52 billion in 2000 and the previous record of \$4.78 billion in 1999.

Receipts for All Agricultural Commodities included \$2.81 billion for **Livestock and Poultry** and \$705.2 million for **Crops**. Higher returns were realized for broiler chickens, eggs, dairy and most crop commodities, including greenhouse, sod and nursery products, while receipts for cattle and calves, hogs and catfish were off rather sharply from a year earlier.

**Broiler Chickens** continued to lead the way as Alabama's # 1 agricultural commodity with receipts of \$2.00 billion, a record-high amount. These receipts compared with \$1.75 billion the previous year and accounted for 41 percent of Total Farm and Forestry Receipts. **Cattle and Calves** contributed \$362.8 million in sales, down 17 percent from a year earlier. Receipts for **Eggs** amounted to \$265.4 million compared with \$259.6 million in 2000. **Greenhouse, Sod and Nursery** returned \$221.1 million, while Alabama **Cotton** farmers racked up \$217.2 million in receipts. Together, these five commodities accounted for nearly 65 percent of Total Farm and Forestry Receipts.
