## CROP PROGRESS AND CONDITION WEEK ENDING AUGUST 1, 2021

**AGRICULTURAL SUMMARY:** By the end of the week, 92 percent of the cotton crop has reached the setting bolls stage compared to 94 percent last year and 22 percent has reached the bolls opening stage compared to 17 percent last year, according to the Mountain Regional Field Office of the National Agricultural Statistics Service, USDA. Cotton conditions were rated mostly good to excellent. Alfalfa conditions were rated mostly excellent to fair depending on location last week, with harvesting taking place on over three-quarters of the alfalfa acreage across the state. For the entire state, pasture and range conditions were rated mostly very poor to fair. Exceptional drought covers only 9 percent of the state compared to 36 percent last week, according to the United States Drought Monitor, and continues to affect pasture and range conditions and forage growth. In the north central and northwestern part of the state, monsoon rains have been filling stock tanks and bringing some forage growth and soil moisture improvement. In the south central and southeastern part of the state, monsoon rains have helped improve crop and forage growth conditions.

### CROP AND LIVESTOCK PROGRESS

Commodity	Current week	Previous week	Previous year	5-year average
	(percent)	(percent)	(percent)	(percent)
Cotton				
Setting Bolls.....	92	84	94	82
Bolls Opening.....	22	15	17	14
