WEEK ENDING: May 3, 2020 RELEASED: May 4, 2020 FREQUENCY: Weekly VOL. 40 NO. 28

WEATHER

Temperature highs ranged from the mid 50s to low 80s in the mountains, mid 60s to low 90s along the coast, mid 60s to mid 90s in the valley, and mid 70s to mid 100s in the desert. Temperature lows ranged from the low 30 to mid 50s in the mountains, high 30s to mid 50s along the coast, mid 40s to mid 70s in the valley, and low 50s to high 70s in the desert.

FIELD CROPS

In Tulare County, winter grain plants such as **wheat, oats** and **barley** were maturing. In other areas, winter small grains including wheat were ready for harvesting. Fields began to be planted with **cotton** and prepped for **corn** planting. **Alfalfa** continued to be cut, dried and baled. **Rice** planting continued on schedule due to favorable weather conditions.

FRUIT CROPS

Stone fruit development was ongoing. **Nectarines**, **peaches**, and **plums** continued to size well. **Cherry** harvest began for some early varieties. **Apple** and **pear** growth progressed with reports of good quality pear fruit. **Pomegranate**, **persimmon**, and **grape** leaf out continued and consistent warm weather assisted with the budding of grape vines. **Valencia orange**, **lemon**, **lime**, **tangelo**, **pomelo**, and **mandarin** harvests steadily progressed. Late Navel **orange** and **grapefruit** harvests began to wrap up for the season. Seedless **tangerine** groves continued to be tented to prevent cross pollination. **Olives** were blooming. **Strawberry** harvest maturation and harvest slowed in a few areas due to cool coastal temperatures. Early **blueberries** were harvested and shipped for domestic and export markets.

NUT CROPS

Orchard maintenance continued and new nut orchards were prepped for planting. **Almond** set appears to be good with highly favorable weather conditions. Almond orchard floors were treated with herbicides and adjuvants. **Walnut** tassels have reached full length in some areas of the state. **Pistachio** leaf out progressed at a normal rate.

VEGETABLE CROPS

Asparagus harvest continued, **tomatoes** for processing continued to be planted. In Tulare County, summer vegetable crops continued to be planted and have developed well with the warm temperatures and adequate rains. Spring and winter vegetables were being harvested and sold at local roadside stands and farmers' markets. Local small plantings of **garlic**, **onions** and **peas** were growing well under mulch.

LIVESTOCK

Rangeland grasses and forbs were flourishing in the warm weather. Foothill rangeland and non-irrigated pasture were reported to be in good to excellent condition. Movement of cattle to higher elevation pasture continued. Some bee hives were moved out of state.
