

Historic County Estimate Revisions

After the 2002 Census of Agriculture, all crop and livestock county estimates were evaluated to determine the need for revisions based on the census results. Historic county estimate final revisions for the years 1998 through 2002 were underway as this publication was being produced. The revised numbers for 2002 appear in the following tables. The revised numbers for 1998 through 2001 will not appear in any printed document produced by Michigan

Agricultural Statistics. However, they can be found at the National Agricultural Statistics Service (NASS) website, <http://www.nass.usda.gov> by choosing "Quick Stats, the Agricultural Statistics Data Base." Quick Stats offers the ability to query by commodity, state and year. The result of the query can be seen online or downloaded as a dataset for use in a database or spreadsheet.

Barley: Acreage, yield, and production, by county, 2002-2003 ¹

County and district	2002				2003			
	Planted	Harvested	Yield	Production	Planted	Harvested	Yield	Production
