

## FARM LABOR

Regional and national data for hired workers, hours worked, and wage rates are published quarterly. Minnesota is included in the Lake Region, which also includes Michigan and Wisconsin. Information from the Farm Labor report is used to determine farm labor's effect on production costs, evaluate the impact of wage rate changes, and to define the nation's need for farm labor.

Farm Labor estimates are made at the U.S. and regional levels in January, April, July, and October for the week including the 12<sup>th</sup> of the month. State level wage rate information is available annually for the October survey period.

### WAGE RATES FOR ALL HIRED WORKERS Excluding Agricultural Service Workers

### HIRED WORKERS: Annual Average Wage Rates, Minnesota, 2001-2005 1/

Year	All Hired	Field	Field & Livestock
