1/ The definition of a farm has undergone several changes during this century. The definitions of a farm as used in this table follow:

1975 A farm is an establishment that sold or would normally have sold \$1,000 of agricultural products during the year.

1954-1974 A farm is a place of 10 or more acres that had annual sales of \$50 or more of agricultural products, or any place of less than 10 acres that had annual sales of \$250 or more.

1951-1953 Estimates were "extrapolated" to provide a smooth transition from the earlier definitions to the 1954 definition.

1950 A farm is a place of three or more acres that produced farm products whose value amounted to \$150 or more, exclusive of home gardens. Places of less than three acres which had sales of \$250 or more, were also considered farms.

2/ Starting in 1991, Christmas tree farms are included.

3/ Preliminary.
