

LIVESTOCK and POULTRY

LIVESTOCK

New York livestock producers marketed 287 million pounds of meat animals during 2001, down 17 percent from the 2000 total of 343 million pounds. Cattle and calf marketings were down 21 percent from a year earlier. Hogs and pigs were up 54 percent, and sheep and lambs increased 3 percent from the poundage sold in 2000. Meat animal cash receipts, totaling \$166 million, were down 10 percent from 2000.

Gross income from livestock during 2001, which includes the sale of meat animals and the value of home consumption, totaled \$169 million, down 9 percent from a year earlier. Cattle and calves accounted for 91 percent of this total.

Calf prices, averaging \$112.00 per hundred pounds liveweight (cwt.), were up 8 percent from 2000. Cattle prices, at an average of \$40.20 per cwt. during 2001, were up 6 percent. Gross income from cattle and calves during 2001 totaled \$154 million, down 12 percent from a year earlier.

Hog and pig prices averaged \$38.70 per cwt. in 2001, up 13 percent from the previous year. Gross income from hogs and pigs during 2001 totaled \$11.2 million, up 54 percent from 2000.

Sheep and lamb marketings, at 3.67 million pounds during 2001, increased 3 percent from a year earlier. Sheep prices averaged \$38.50 per cwt., up 5 percent from 2000. Lamb prices averaged \$104.00 per cwt., 13 percent higher than during 2000. Gross income from sheep and lambs during 2001 totaled \$3.75 million, up 24 percent from the prior year.

New York wool production during 2001 totaled 320,000 pounds, up 5 percent from the 2000 total. The average price received for wool increased 31 percent to 17 cents per pound compared with 13 cents in 2000. The value of production, at \$54,000, increased 35 percent from the record low total of a year earlier.

HONEY

Honey production from beekeepers with five or more hives in New York totaled 3.71 million pounds during 2001. This total is down 20 percent from the 2000 production of 4.64 million pounds.

The 2001 production was extracted from 53,000 colonies, down 9 percent from the 58,000 colonies in 2000. Honey yield per colony averaged 70 pounds, 12 percent below the 2000 yield. Honey stocks on hand across the State as of

December 15, 2001 totaled 1.78 million pounds, a decrease of 22 percent from the 2.27 million pounds a year earlier.

Prices received by beekeepers in New York averaged 68.0 cents per pound for all methods of sale during 2001, 24 percent more than the 2000 average price of 55.0 cents. Value of honey production for the State in 2001 totaled \$2.52 million, compared with \$2.55 million in 2000.

TROUT

New York trout producers sold a total of 152,000 pounds of trout valued at \$707,000 during the 12 months ending December 31, 2001. This production, which includes foodsize fish, stockers, and fingerlings, was up 9 percent from the production total of a year earlier. Value of production was up 15 percent from a year ago.

The 2001 output included 83,000 pounds of foodsize trout averaging \$4.27 per pound in value, 66,000 pounds of stocker trout averaging \$4.72 per pound, and 3,000 pounds of fingerlings. Foodsize fish averaged .96 pounds in weight, while stockers averaged .46 pounds. Poundage of foodsize trout sold was up 4 percent from 2000, while stocker poundage was up 22 percent.

POULTRY

The combined value of New York produced eggs, broilers, and turkeys, and the value of sales for other chickens, was \$63.6 million for the year ending November 30, 2001. This total is up 3 percent from a year earlier. Increases in the value of eggs and broilers produced more than offset a decrease in the value of turkeys. Of the 2001 combined value, 85 percent was derived from eggs and 8 percent from broilers.

Egg production in New York during the 2001 year totaled 1.14 billion, up 3 percent from a year earlier. Egg prices averaged slightly higher, increasing from 56.4 cents in 2000 to 56.7 cents in 2001. The resulting total value of \$54.0 million was 3 percent above the 2000 egg production value of \$52.3 million. Broiler production in New York for 2001 totaled 12.2 million pounds, up 3 percent from a year earlier. The average price per pound increased 5 cents from 2000 to 41 cents in 2001. Value of production for 2001 totaled \$5.0 million, up 18 percent from \$4.2 million in 2000.

Statewide turkey production in 2001 amounted to 11.1 million pounds, down 11 percent from 2000. The average price of 41 cents per pound was down 2 cents from the 2000 price. Value of production totaled \$4.5 million, down 15 percent from the 2000 level of \$5.3 million.

The poundage of other chickens sold in New York (*excluding broilers*) during 2001 was up 4 percent from the previous year. The average price was only 10 percent of the 2000 price. Thus, the value was low.
