Preliminary cranberry estimates were released from the National Agricultural Statistics Service on January 23, 2008. Production for the 2007 Oregon cranberry crop was estimated at 490,000 barrels. This was 10,000 barrels lower than the August forecast and 5 percent above the 2006 final estimate of 465,000 barrels. The 2007 yield per acre, at 182 barrels, was 10 barrels higher than 2006. Harvested acreage remained at 2,700 acres.

The entire Preliminary Noncitrus Fruits and Nuts report can be found on the NASS Homepage at <http://www.nass.usda.gov/index.asp>. You can also access reports through the Oregon Field Office website or by contacting our office directly. All contact information is listed at the bottom of this report.

Thank you to all the cranberry growers and handlers in Oregon for completing the survey this past fall. These reports would not be possible without your help.

Upcoming Cranberry Releases for 2008

- **July 8, 2008** – Final Noncitrus Fruits and Nuts annual release
- **August 19, 2008** – Production forecast for the 2008 crop

Please remember to return your 2007 Census of Agriculture.
