

Commercial Vegetable Production, 2006

Production: Pennsylvania's total production of both fresh market and processing principal vegetables for 2006 was 204,000 tons, up 3 percent from 2005. Fresh market production in 2006 was up less than 1 percent, and processing was up 18 percent.

Yield: Sweet corn yields decreased 7 percent for fresh market and increased 31 percent for processing. Tomato yields increased 30 percent for fresh market over the previous year level. Strawberry yields increased 5 percent; snap bean yields increased 5 percent from 2005.

Sweet corn production decreased 8 percent for fresh market, while processing production increased 21 percent. Fresh market tomato production increased 23 percent from 2005. Strawberry production was up 6 percent, while snap

bean production for processing increased 19 percent from a year ago. Total pumpkin production for fresh market and processing was 1,168,000 cwt., down 11 percent from 2005.

Acreage: Total harvested acreage for fresh and processing vegetables was up 2 percent at 42,800 acres. Fresh market harvested acreage decreased 2 percent to 30,800 and total processing harvested acreage increased 11 percent to 12,000.

Value: The combined value of both fresh and processing vegetables was \$119,727,000, an increase of 35 percent from 2005. The fresh market section totaled \$112,382,000, up 37 percent. Processing vegetables totaled \$7,345,000 in 2006, up 10 percent. Fresh market prices per hundredweight were higher for sweet corn, cabbage, tomatoes, cantaloups, and pumpkins, but lower for strawberries. Processing vegetable prices per ton were lower for sweet corn and snap beans.

Pennsylvania: Total Principal Vegetables, Fresh and Processing, 1990-2006
