

Charts and Graphs of Pennsylvania Agriculture

The following pages display a few of the Microsoft PowerPoint slides, which can be found on our website at www.nass.usda.gov/pa/. These slides describe various facets of Pennsylvania's agriculture. Many, many more can be found there!

The screenshot shows a web browser window titled "NASS - Pennsylvania Charts and Maps - Windows Internet Explorer". The address bar shows the URL "http://www.nass.usda.gov/Statistics_by_State/Pennsylvania/Charts_and_Maps/index.asp". The page content includes the USDA logo and "National Agricultural Statistics Service" header. A navigation menu lists "Home", "About NASS", "Newsroom", "Publications", "Data and Statistics", "Census", "Surveys", "Help", and "Contact Us". A search box is on the left. The main content area is titled "Pennsylvania office of USDA-NASS" and "Charts and Maps". It contains a paragraph explaining that the links are Microsoft PowerPoint presentations describing various facets of Pennsylvania's agriculture, including demographics from the Census of Agriculture and annual statistics for major commodities. It also includes a "Left or Right Click?" note and a list of links for Dairy, Demographics & Economics, Field Crops, Livestock and Poultry, and Specialty Crops. On the right, there are sections for "I Want To..." with links like "Search for Pennsylvania Data and Statistics" and "Contact the Pennsylvania Field Office", and "More State Features" with links like "2007 Ag Census Promotion" and "Census Legislative District Profiles". At the bottom right, there is a "Tripartite site for North American Agricultural Statistics" logo.

From the Pennsylvania homepage, click on the 'Pennsylvania charts or maps' link located on the right-hand side under More State Features. Please note that download times vary for each PowerPoint File. They can range from 10 seconds to 5 minutes depending on your computer processing speed and internet connection. A left or right click may work better depending on the setup of your Internet software.

The charts include demographics from the Census of Agriculture, which is done every 5 years, and annual statistics for major commodities grown in Pennsylvania. The slides are updated monthly on our site to capture the latest published statistics. A reference date is shown on the bottom of each slide.

You can find slides available on Dairy, Demographics & Economics, Field Crops, Livestock and Poultry, and Specialty Crops. A few slides from each category are shown on the next few pages.
