Issued Monday, November 7, 2022, 3:00 PM

For the Week Ending November 6, 2022

MIXED WEATHER CONDITIONS ACROSS STATE

In West Tennessee, rains and wet conditions resulted in limited harvest progress. In Middle Tennessee, however, conditions were still mostly dry. Some producers hauled water and fall seeded crops were slow to emerge. Fall harvest was still going well but for most crops, particularly corn, yields were expected to be lower than last season. Lack of rain in East Tennessee especially affected pastures. Producers were awaiting rainfall to replenish soil moisture before planting wheat. Many livestock watering ponds have unfortunately gone dry. Across the State last week, there were 5.1 days suitable for field work. Statewide, topsoil moisture was 14 percent very short; 34 percent short, and 51 percent adequate, and 1 percent surplus. Subsoil moisture was 15 percent very short; 41 percent short; and 44 percent adequate.

					CONDITION					
CROP PROGRESS	This Week	Last Week	2021	5 Year Avg.	Item	Very Poor	Poor	Fair	Good	Excellent
	Percent					Percent				
Corn – Harvested	99	97	94	97	Cattle	2	5	37	50	6
Cotton – Harvested	74	65	52	66	Winter Wheat	0	8	43	43	6
Soybeans – Harvested	80	73	64	69	Pasture	11	29	43	16	1
Winter Wheat – Planted	80	63	69	68						
Winter Wheat – Emerged	56	36	48	47
