The USDA-NASS conducted the county level Cash Rents Survey from February through July of 2010. Over 18,000 operations were sampled across the state. The tables here include estimates based on the results from this survey and from the comparable survey last year. Acres rented for cash excludes share rented land. An asterisk (*) indicates that NASS disclosure requirements were not met and, therefore, the county rate could not be published. If not enough reports were collected to ensure the statistical defensibility of the rental rate for a county or the confidentiality of all reports received in the county, the rate was not published.

State of Texas	Pastureland		Cropland			
			Non Irrigated		Irrigated	
	2009	2010	2009	2010	2009	2010
	<i>dollars per acre</i>		<i>dollars per acre</i>		<i>dollars per acre</i>
