This report contains the results from the September 2012 Agriculture Survey, which focused on wheat and oats production in Texas. The state level estimates of small grain production in this report are considered "final" for the 2012 crop year. Our thanks to all producers who responded to the September Agriculture Survey, your responses are the foundation of the estimates in this final report. The full report with all state and U.S. estimates is available at: <http://www.nass.usda.gov/Publications/index.asp>

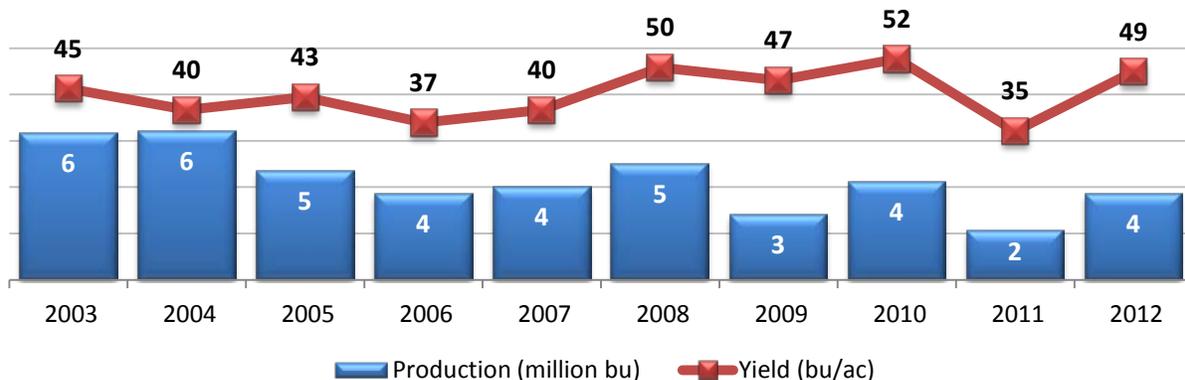

Texas **wheat** producers harvested 96.0 million bushels, up from 49.4 million in 2011 but down from 128 million bushels in 2010. Statewide yield averaged 32.0 bushels per acre, 6 bushels above last year and 1 bushel above the August 1 forecast. Harvested acreage for grain is 3.0 million acres, up 58 percent from 2011.

Texas Wheat Production and Yield

Texas **oats** production totaled 3.68 million bushels in 2012, up 75 percent from 2011 but down 12 percent from 2010. The 2012 Texas oats yield at 49 bushels per acre is 14 bushels above the 2011 yield of 35 bushels per acre. Texas oats harvested acres at 75 thousand are up 25 percent from 2011 but down 6 percent from the 2010 level.

Texas Oats Production and Yield

Production on the Northern High Plains is forecast at 27.3 million bushels, up 49 percent from last year. Winter wheat production on the Low Plains is forecast at 24.1 million bushels, up 17.2 million bushels from last year. The Blacklands production is estimated at 27.2 million bushels, up 10.4 million from last year.

United States winter wheat production for 2012 totaled 1.65 billion bushels, down 2 percent from last month but up 10 percent from 2011. Yield averaged 47.2 bushels per acre, 1 bushel higher than a year ago. Acreage to be harvested for grain totaled 34.8 million acres, up 8 percent from last year.

Texas Wheat District Estimates 2011 and 2012 ¹

District	Planted Acres		Harvested Acres		Yield per Acre		Production	
	2011	2012	2011	2012	2011	2012	2011	2012
