## 2011 Crop Production Values

The price of Wisconsin's 2011 corn crop was up \$0.73 from the previous marketing year, averaging \$6.00 per bushel. The total value of the corn crop was \$3.11 billion. Nationally, corn sold for an average \$6.20 per bushel and had a total value of \$76.5 billion.

Wisconsin's 2011 soybean crop was valued at \$861 million. Soybean prices averaged \$11.70 per bushel, up \$0.90 from the previous year. Nationally, the soybean crop was valued at \$35.8 billion, based on an average selling price of \$11.70 per bushel.

The value of Wisconsin dry alfalfa hay production was \$357 million, down from \$400 million in 2010. The average price per ton in 2011 was \$111. The value for all other hay types was \$68.8 million, up from \$58.2 million in 2010. The average price of \$80.50 per ton was up from \$77.00 in 2010.

The value of principal crops produced in Wisconsin in 2011 will be published in February 2013.

The value of a crop is its average sale price times total production, and does not include allowance or adjustments for commodities under government loan at the end of the marketing year, commodities forfeited to the Commodity Credit Corporation, loan deficiency payments, direct and counter cyclical payments, or disaster payments. Preliminary 2011 market year average prices for corn, oats, barley, wheat, soybeans, and potatoes are based on monthly price data through December 2011 with allowances made for the remainder of the crop left to be marketed. State MYA prices for crops not in the monthly price program are based on annual surveys.

**Wisconsin Crop Values**

Crop	Unit	Market Year Average Price per Unit			Value of Production		
		2009	2010	2011	2009	2010	2011
		Dollars			1,000 dollars
