Released: Monday, November 5, 2007

## Week of October 29 – November 4, 2007

**AGRICULTURAL SUMMARY:** Unseasonably warm days persist.

Hay and roughage supplies adequate.

Livestock in good condition.

Temperatures continue to be unseasonably warm across the State. All Stations reported averages above normal for the week. Spotty precipitation continues to fall across the State but in varied amounts. Fair fall conditions allowed some re-growth in meadows. Temperatures averaged in the 40's and ranged from 3.2 degrees to 7.4 degrees above normal. Lows reported were mostly in the teens and 20's while highs were mostly in the 60's and 70's. Top soil moisture levels were unchanged from last week at 53 percent adequate or better.

**FIELD CROP REPORT:** There were 6.7 days suitable for field work. Corn crop conditions were stable at 66 percent good or better. Corn harvested for grain was 48 percent complete, 7 points behind average and 12 points behind this time last year. Sugarbeet harvest was starting to wind down with 89 percent complete. The 2008 winter wheat conditions swapped a point between the fair and good categories from last week and were reported as 94 percent good or better.

### CROP CONDITION TABLE

Item	V Poor	Poor	Fair	Good	Excel
Corn	0	0	34	64	2
Winter Wht	0	0	6	70	24

**LIVESTOCK, PASTURE, AND RANGE REPORT:** Hay and roughage supplies were reported as 82 percent adequate or better. Seventy-six percent of livestock were reported in good condition while 4 percent were reported in excellent condition.

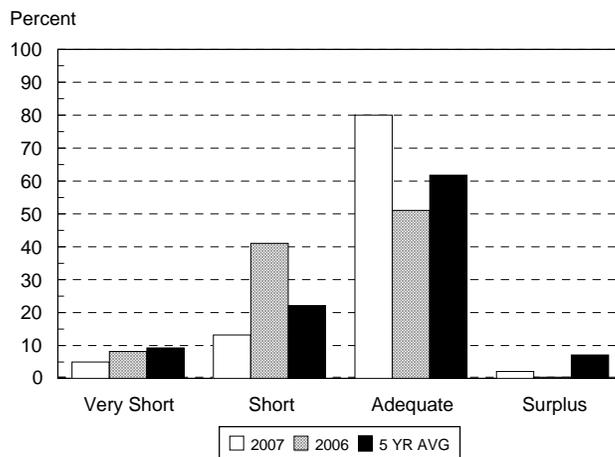

**WEATHER SUMMARY:** Cody received the most rain fall with 1.68 inches of precipitation reported. Torrington had the highest temperature recorded of 78 degrees. The low temperature of 10 degrees was reported in Big Piney.
