

## BEES and HONEY PRODUCTION

Honey production from producers with five or more colonies in New England totaled 1.0 million pounds in 2001, an increase of six percent from the previous year. Vermont led the New England States with 567,000 pounds produced, or 56 percent of the six-State total production. The average yield from the region's total of 23,600 honey producing colonies

was 43 pounds per colony, up 16 percent from the average yield in 2000. Maine contributed 47 percent of New England's colonies. Total value of honey production for New England in 2001 was \$1.2 million, an increase of 14 percent from 2000's value.
