

Statistical Reports Program

USDA's National Agricultural Statistics Service publishes timely estimates on crop and livestock production, prices and various other special reports. A list of the more important reports and the approximate date of release is shown in the table below. Many Oklahoma statistics from these reports are published in the twice-monthly **Oklahoma Farm Statistics**.

All reports are free to Oklahoma farmers and agri-businesses that provide data to this office, the news media, state and local government and educational institutions. There is a minimal charge for the printed version of the Oklahoma Farm Statistics and Crop Weather for all other subscribers. These printed reports may be obtained by filling out the report order form on page 106 of this bulletin.

All national reports are available on the Internet at: <http://www.nass.usda.gov/Publications>
and reports for Oklahoma at: <http://www.nass.usda.gov/ok>

Type of Report	Frequency of Report	Approximate Date Available
I. Crop Reports
