**Certified Organic Highlights**

The 2015 Certified Organic Survey is a survey of all operations identified as having certified organic production. Certified organic farms must meet the standards set out by USDA’s Agricultural Marketing Service’s (AMS) National Organic Program (NOP) and be certified compliant by an approved agent of NOP. Results from the survey provide acreage, production, and sales data for a variety of certified organic crops and certified organic livestock.

In 2015, the United States had 12,818 certified organic farms that produced \$6.2 billion in certified organic products. Hawaii had 120 certified organic farms with 1,646 acres of certified land that produced \$12.6 million in certified organic products. Of those farms in Hawaii, 48 percent were certified organic for 10 years or more.

In Hawaii, 72 certified organic farms sold to wholesale markets, 65 farms sold directly to consumers, and 62 farms sold directly to retail markets and institutions. The first point of sales for 93 percent of certified organic farms in Hawaii was within 100 miles of the farm and 18 percent was within 100-499 miles of the farm. Over the next five years, 40 percent of certified organic operations in Hawaii plan to increase certified organic agricultural production.

For more information on the 2015 Certified Organic Survey and related reports, please visit the NASS Organic Agriculture page at: [www.nass.usda.gov/organics](http://www.nass.usda.gov/organics).

**Farms, Land, and Value of Sales on Certified Organic Farms: 2015 and 2014**

Geographic area	2015			2014		
	Total certified farms	Total certified acres	Total certified sales (\$1,000)	Total certified farms	Total certified acres	Total certified sales (\$1,000)
United States .....	12,818	4,361,849	6,163,472	12,634	3,642,933	5,451,377
Hawaii .....	120	1,646	12,576	121	3,373	13,224

**Certified Organic Crops Value of Sales: 2015**

Crop	Farms	Value of sales (dollars)
All vegetables, potatoes, and melons grown in the open
