Total Agricultural Exports	1,973.2	2,443.1	3,373.8	4,428.2	3,833.8	4,501.2

¹ While a State's actual agricultural export value cannot be measured directly, ERS has developed methods that provide indirect estimates of exports using State export shares. Data is provided using a calendar year series of export estimates based on U.S. farm cash receipts.

² Methodology for dairy revised starting in 2007 to estimate shares based on state production of cheese, butter, dry whey, ice cream, and sherbet.
