The June wheat yield and production forecast are based on two surveys conducted by the Southern Plains Regional Field Office: a farm operator survey and an objective yield survey. The farm operator survey was conducted primarily by telephone with some use of mail, internet and personal interviews. The objective yield survey collects actual stalk counts and head weights from plots set up in producer fields across the states of Oklahoma and Texas.

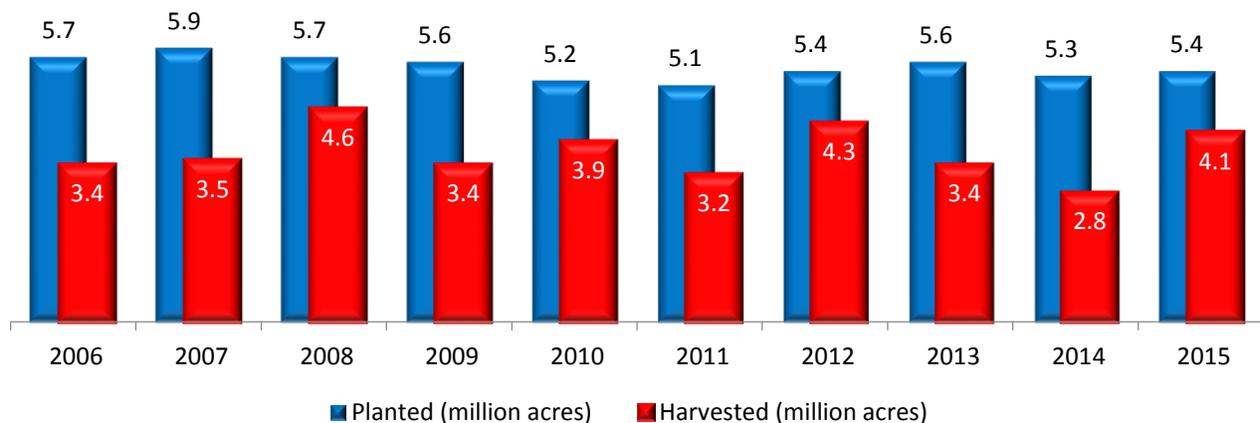

Data provided by Oklahoma and Texas operators are the foundation of the estimates made for the Southern Plains region. We would like to thank all farmers who responded to the Ag Yield survey and to those wheat producers who permitted objective measurements to be taken in their fields.

## Oklahoma Wheat Production and Yield

**Wheat** production for **Oklahoma** is forecast at 115 million bushels, up 141 percent from last year. This forecast is down 4.1 million bushels from the Oklahoma May forecast. Yield per acre is expected to average 28.0 bushels, up 11.0 bushels from the previous year. Acres expected to be harvested for grain, at 4.10 million acres, are up 46 percent from 2014.

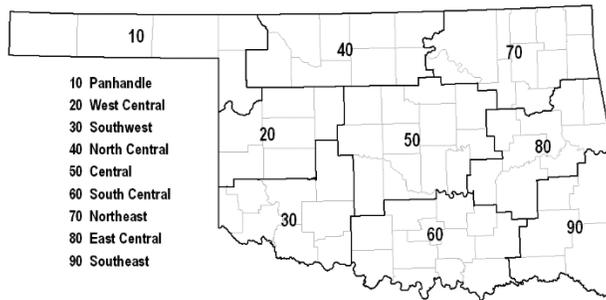

## Oklahoma Wheat Planted and Harvested

**Oklahoma Wheat District Estimates, Final 2014 and June 1, 2015 Forecast**

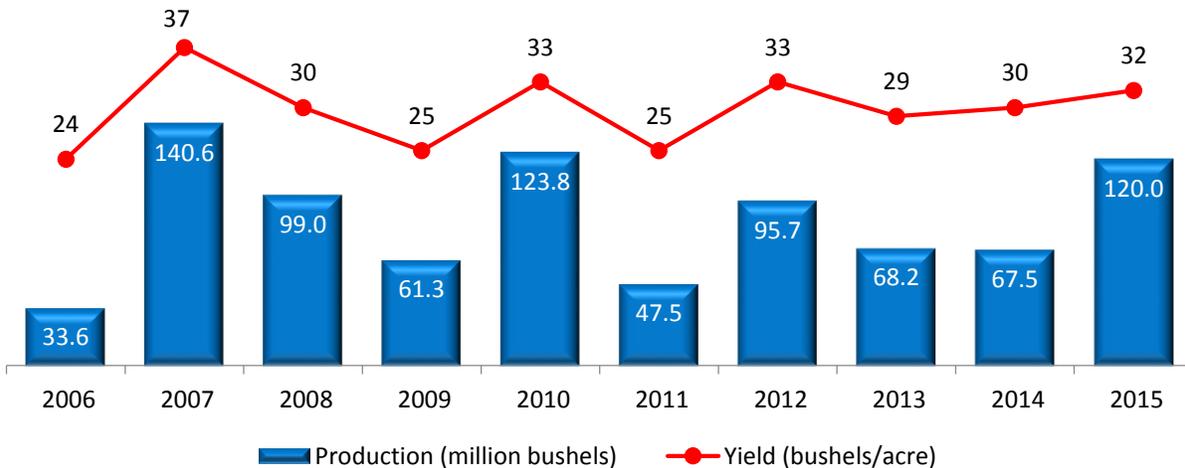

District	Planted Acres		Harvested Acres		Yield Per Acre		Production

**Wheat** production for **Texas** is forecast at 120 million bushels, up 78 percent from last year. This forecast is down 11.3 million bushels from the Texas May forecast. Yield per acre is expected to average 32.0 bushels, up 2.0 bushels from 2014. Harvested acreage for grain, at 3.75 million acres, is up 67 percent from the previous year.

**Texas Wheat Production and Yield**

## Texas Wheat Planted and Harvested

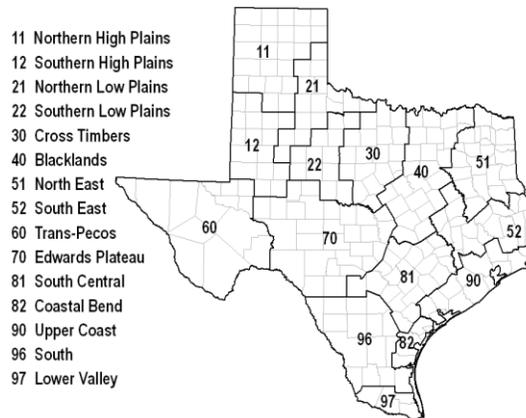

Winter wheat production in the Northern High Plains is forecast at 49.8 million bushels, up 145 percent from last year. Winter wheat production in the Blacklands is forecast at 20.1 million bushels, down 18 percent from the previous year. The Southern Low Plains production is estimated at 16.6 million bushels, up 206 percent from 2014.

**Texas Wheat District Estimates, Final 2014 and June 1, 2015 Forecast**

District	Planted Acres		Harvested Acres		Yield Per Acre		Production
