USDA Releases Results of First Farmland Landlord Survey Since 1999

The U.S. Department of Agriculture's National Agricultural Statistics Service (NASS) today released the results of the 2014 Tenure, Ownership, and Transition of Agricultural Land (TOTAL).

NASS conducted the survey in cooperation with the USDA's Economic Research Service to get a better insight into who owns U.S. farmland. TOTAL was the first time NASS surveyed farmland landlords since 1999. The survey results provide analysis of rented farmlands by acreage, as well as by landlords, which include individuals, as well as ownership arrangements such as partnerships, corporations, trusts, and other types of ownership.

For complete TOTAL results, visit agcensus.usda.gov/Publications/TOTAL. For state specific questions please contact:
