2022 SMALL GRAIN COUNTY ESTIMATES

County-level estimates for 2022 small grains are now available, according to the USDA's National Agricultural Statistics Service. The estimates, based primarily on surveys conducted with farmers and ranchers this fall, can be accessed using the QuickStats online database, found here: <https://quickstats.nass.usda.gov>.

The commodity estimates include barley for Arizona, Colorado, Montana, and Wyoming; oats for Montana; Durum wheat for Arizona and Montana; spring wheat for Montana; and winter wheat for Colorado and Montana. County-level estimates for late-season crops will be published in February 2023.

For state specific questions, please contact the following State Statisticians at 1-800-392-3202:

Arizona – Dave DeWalt
Colorado – Rodger Ott
Montana – Eric Sommer
Wyoming – Leslee Lohrenz
