Comments from Cooperative Extension Service County Agents

"Many producers were finishing rice harvest, and some producers were starting soybean harvest. Others were preparing fields for next year's crop."

- Dave Freeze, Greene County

"Harvest continued last week. For the most part, yields remain good. Rain received late last week will slow things up."

- Bryce Baldridge, Lawrence County

"Rice and soybean harvest started early last week. Row crop producers started planning for planting wheat for grain, and livestock producers were starting to plant winter annuals. Fall calving continued."

- Kevin Lawson, Faulkner County

"Rapid harvest continued with rice, and soybean harvest pace was picking up. Dry conditions are causing concern for wild fires."

- Brent Griffin, Prairie County

"Recent rains have greened up pastures and given area cattlemen the opportunity to plant cool season annuals. However, the county is still under a burn ban."

- Terrell Davis, Pike County

"The promise of a cool front and rain will likely lead to improved conditions. Cool season forages will finally get the moisture and temperatures needed for their transition."

- Glenda Sutherlin, Union County
