Comments from Cooperative Extension Service County Agents

"There has been substantial storm damage reported throughout the county. Cattle producers began feeding hay last week."

- Johnny Gunsaulis, Benton County

- Dave Freeze, Greene County

"We had two tornadoes touch down in the county last week. Lots of poultry houses reported damage and there are many fences in need of repair. Several poultry producers were without power for a few days and had to run generators."

- Olivia Foster, Carroll County

- Kevin Lawson, Faulkner County

"Rainfall slowed crop harvest last week. Fall tillage concluded. Supplemental feeding to livestock was taking place as well."

- Brent Griffin, Prairie County

"Rain and cooler temperatures received last week should help the transition into fall weather, but it appears the fall season will be short this year. The truly cold weather appears to be on the horizon."

- Glenda Sutherlin, Union County

[&]quot;Last week, producers were harvesting soybeans, peanuts, and cotton."

[&]quot;Producers continued with soybean harvest, wheat planting, and planting of winter annuals for forage."
