Louisiana Department of Agriculture and Forestry, and Mississippi Department of Agriculture and Commerce**

This report contains the results from the **2023 July Ag Yield Survey**. These data are also posted on our web site at <https://www.nass.usda.gov>. Thanks to all who responded to this survey.

**Arkansas Winter Wheat Yield Forecast Up 4 Bushels from June
Mississippi Winter Wheat Yield Forecast Up 2 Bushels from June**

As of July 1, **Arkansas winter wheat** production for 2023 is forecast at 9.08 million bushels, up 11 percent from the June 1 forecast and up 14 percent from last year. Based on July 1 conditions, yield is forecast at 55 bushels per acre, 4 bushels higher than last month and 2 bushels above from last year. Area for harvest, at 165,000 acres, is unchanged from the *Acreage* report released on June 30, 2023, and up 10 percent from 2022. The July 3, 2023, *Arkansas Crop Progress and Condition* report showed 93 percent of the winter wheat crop had been harvested.

Mississippi winter wheat production for 2023 is forecast at 5.04 million bushels, up 4 percent from the June 1 forecast and up 29 percent from last year. Based on July 1 conditions, yield is forecast at 53 bushels per acre, 2 bushels higher than last month and 1 bushel above from last year. Area for harvest, at 95,000 acres, is unchanged from the *Acreage* report released June 30, 2023, but up 27 percent from 2022. The July 3, 2023, *Mississippi Crop Progress and Condition* report showed 95 percent of the winter wheat crop had been harvested.

United States winter wheat production is forecast at 1.21 billion bushels, up 6 percent from the June 1 forecast and up 9 percent from 2022. Based on July 1 conditions, the United States yield is forecast at 46.9 bushels per acre, up 2.0 bushels from last month but down slightly from last year. The area expected to be harvested for grain or seed totals 25.7 million acres, unchanged from the *Acreage* report released on June 30, 2023, but up 10 percent from 2022.

Winter Wheat Area Harvested, Yield, and Production - Arkansas, Mississippi, Surrounding States, and United States: 2022 and Forecasted July 1, 2023

State	Area harvested		Yield per acre			Production	
	2022	2023	2022	2023		2022	2023
				June 1	July 1		
	(1,000 acres)	(1,000 acres)	(bushels)	(bushels)	(bushels)	(1,000 bushels)	(1,000 bushels)
Arkansas	150	165	53.0	51.0	55.0	7,950	9,075
