Broiler-Type Eggs Set in the United States Up 1 Percent

Hatcheries in the United States weekly program set 231 million eggs in incubators during the week ending August 10, 2019, up 1 percent from a year ago. Average hatchability for chicks hatched during the week in the United States was 82.7 percent. Average hatchability is calculated by dividing chicks hatched during the week by eggs set three weeks earlier.

Broiler-Type Chicks Placed in the United States Up 1 Percent

Broiler growers in the United States weekly program placed 189 million chicks for meat production during the week ending August 10, 2019, up 1 percent from a year ago. Cumulative placements from the week ending January 5, 2019 through August 10, 2019 for the United States were 5.97 billion. Cumulative placements were up 1 percent from the same period a year earlier.
