COUNTY AGRICULTURAL COMMISSIONERS' REPORTS

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office.

County reports can also be downloaded at:

cacasa.org/crop-reports/

For your convenience, contact information is included at the end of this report. Many of the counties publish the reports on their websites free-of-charge.

USDA's National Agricultural Statistics Service, Pacific Region publications are available free-of-charge on the Internet at:

nass.usda.gov/ca

Introduction

This publication is based on the annual Crop Reports compiled by the California County Agricultural Commissioners.

Reports were received from 52 of the 58 counties for 2021. Six County Agricultural Commissioners' Reports, Del Norte, Humboldt, Lassen, Siskiyou, Trinity, and Tuolumne counties were not available at the time of publication. Data for Siskiyou and Tuolumne counties was pulled forward from 2020, however since the data from the other four counties has not been available for the past three years, these counties are not included in this publication.

The methodology and data sources for the county reports varies between counties. Data sources may include voluntary producer surveys, regulatory and inspection data, shipment data, and commodity commission assessments. Copies of individual County Agricultural Commissioners' Reports may be obtained directly from each County Agricultural Commissioner's office or found at: cacasa.org/crop-reports/

The level of detail of the data in the county reports varies between counties. For example: one county may publish acreage and total value of production for all grapes; another county may publish acreage, tonnage produced, and total value of production separately for wine grapes, table grapes, and raisin grapes. In this publication, detailed data is published when it is available in the county's report. Data is also summed into commodity groups, such as "Grapes, All", and commodity categories, such as "Fruit & Nuts". These sums are designed to assist with comparison between counties which publish data with different levels of detail. We have also updated the commodity names and groupings to allow for greater detail and comparability to the counties' data.

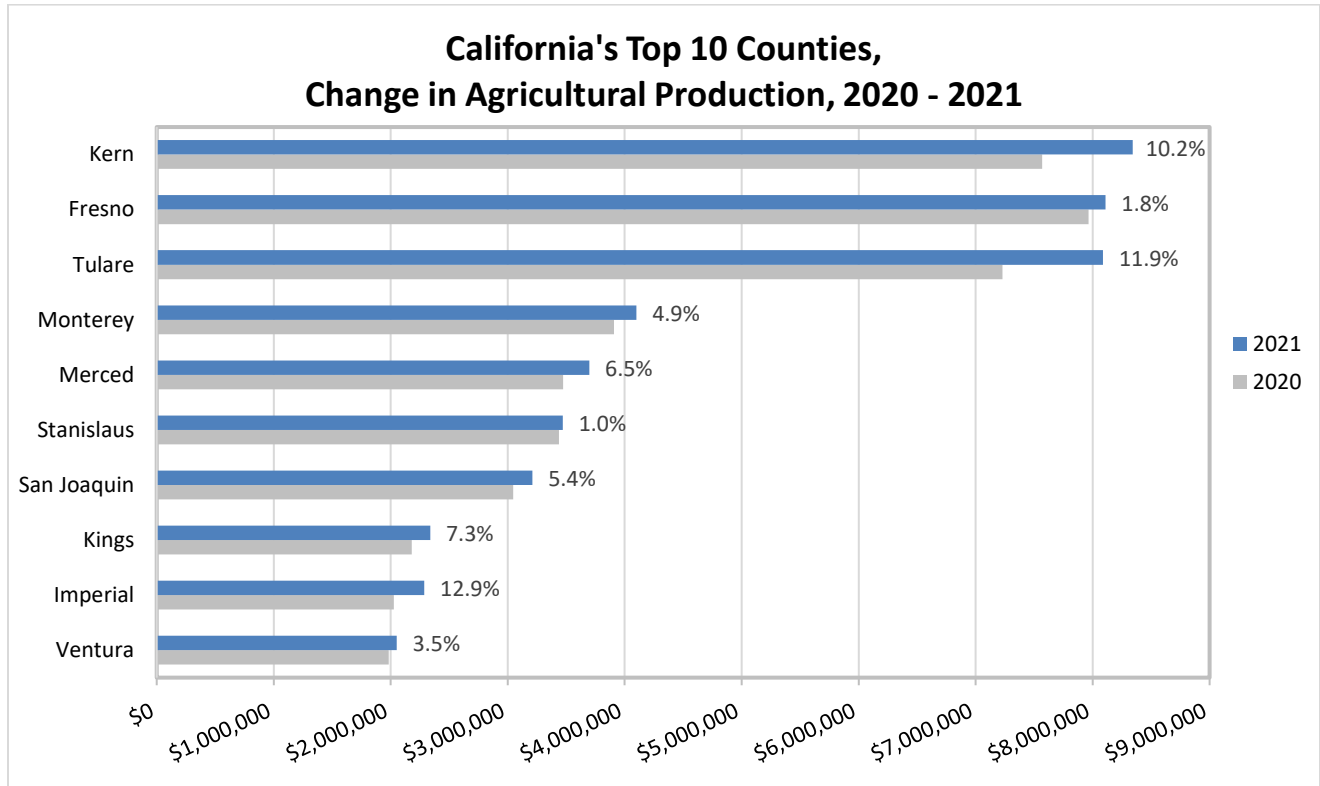

In the Commodity Data, the "Sum of Others" includes data from counties who provided the California Department of Food and Agriculture with confidential data. This data does not meet confidentiality requirements to be published at the county level, such as when the data is from a small number of producers. The "Sum of Others" row sums data from several different counties that, when combined, meet the confidentiality requirements to be published.

Credit is due to the County Agricultural Commissioners and their staff members for preparing the annual county Crop Reports upon which this compilation is based.

Summary of County Agricultural Data

Overall, California's counties reported an increase of 6.4 percent in the state total value of agricultural production for 2021 compared to 2020. Seven counties reported value of production exceeding \$3.0 billion each. Fifteen counties reported a value of production exceeding \$1.0 billion each. Kern County is the leading county with an agricultural value of production of \$8.34 billion, an increase of 10.2 percent from 2020. Fresno County was second in value of production with \$8.11 billion, an increase of 1.8 percent from 2020. Tulare County was third in value of production with \$8.09 billion, an increase of 11.9 percent from 2020. Monterey County was fourth in value of production with \$4.10 billion, an increase of 4.9 percent from 2020.

Top 15 Commodities by Value of Production with Leading Counties, 2021

Rank	Commodity	County Ranked 1st	Percent of State Total Value	County Ranked 2nd	Percent of State Total Value
1	Grapes, All	Kern	25.4	Fresno	18.1
2	Milk, Cow's, All	Tulare	27.3	Merced	15.3
3	Almonds, All	Kern	17.2	Stanislaus	15.5
4	Oranges, All	Tulare	56.9	Kern	28.4
5	Horticulture, All	San Diego	33.5	Riverside	6.8
6	Cattle, All	Tulare	19.1	Imperial	14.0
7	Pistachios	Kern	38.4	Fresno	22.8
8	Berries, Strawberries, All	Monterey	31.2	Santa Barbara	27.4
9	Lettuce, All	Monterey	57.3	Imperial	19.9
10	Walnuts	San Joaquin	26.0	Butte	9.9
11	Tangerines & Mandarins	Kern	45.0	Tulare	32.1
12	Peaches, All	Fresno	35.8	Tulare	31.4
13	Alfalfa, All	Imperial	23.4	Tulare	10.2
14	Rice, All	Colusa	28.1	Glenn	16.1
15	Lemons	Tulare	36.3	Ventura	26.5

Gross Value in Agricultural Commissioners' Reports

The gross value of production published in this report includes all farm production, whether sold through usual marketing channels or used on the farm where it is produced. This includes the value of pasture and range feed. Fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. Consequently, the values summarized in this report are not comparable to the values estimated by USDA's National Agricultural Statistics Service.

Some counties include timber as a part of their crop report, following the pattern set by the California County Agricultural Commissioners and Sealers Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total 2021 value of production reported by the counties, including timber, is \$64.4 billion, up 6.4 percent from last year. Mendocino County leads the State with \$33.8 million in timber value. Timber accounts for 20.2% of Mendocino County's total agricultural value.

California's Leading Timber Counties, 2021 ¹

Timber Rank	County	Timber Volume	Total Agricultural Value (Including Timber)	Timber Value	Timber Percentage of Total Agricultural Value Within County
		<i>Million Bd. Ft.</i>	<i>\$1,000</i>	<i>\$1,000</i>	<i>Percent</i>
1	Mendocino	83,183	167,228	33,807	20.2
2	Shasta	141,605	113,079	30,517	27.0
3	Siskiyou	144,021	376,178	26,906	7.2
4	Butte	264,070	577,208	23,761	4.1
5	Plumas	220,672	44,394	21,691	48.9

¹ Timber volume and value data are from the State Board of Equalization, Timber Tax Division.

¹ Number of producers as published by each county. Different counties capture and summarize this information in different ways. Data sources include a voluntary producer survey, organic certifications held during the crop year, and organic registrations granted/renewed during the crop year.

² Acres may include organic rangeland or pasture.

³ Total value as published by each county. This figure may include value-added products.

⁴ County was dropped from the 2021 report.

nassrfopcr@usda.gov

Individual county reports:
cacasa.org/crop-reports/

This publication is based on the annual Crop Reports compiled by the California County Agricultural Commissioners. The methodology and data sources for the county reports varies between counties. Data sources may include voluntary producer surveys, regulatory and inspection data, shipment data, and commodity commission assessments.

USDA's National Agricultural Statistics Service, Pacific Regional Field Office compiles the data in cooperation with the California Department of Food and Agriculture.
