 2/ Primitivo and Zinfandel data for 2005 and 2006 were combined in the "Final Grape Crush Report, 2006 Crop," but are now separated.
 3/ Price per Degree Brix not included in weighted average base price.

JULY 2007 ERRATA TO THE FINAL GRAPE CRUSH REPORT, 2006 CROP

TABLE 8 - SUPPLEMENT:2006 BRIX ADJUSTMENT FACTORS

The following Brix adjustment factors are on a per degree Brix basis and are normally calculated to a tenth of a degree, and are cumulative unless otherwise indicated. Most processors, however, indicate maximum and/or minimum Brix acceptance limits. Grapes testing above or below these limits may be subject to price renegotiation, acceptance for use other than for table wine, or rejection by the processors. Discounts for high sugar apply to both base price and bonus unless otherwise stated. There are factors other than Brix, such as material other than grapes (MOG), defects, weight loss in late harvest grapes, and sugar/acid ratios that affect grape prices. These were not considered in this presentation, unless otherwise stated, but were considered in arriving at weighted average prices.
