September 20, 2010

Conditions Still Very Dry as Harvest Continues

For the week ending, September 19, 2010, the days suitable for fieldwork were **6.7** days in Delaware and **6.5** days in Maryland. Soil moisture ratings in Delaware were mostly adequate and Maryland was rated as short. One crop reporter in Delaware reported: *"Corn is being harvested with varying results."* Another reporter from the Baltimore area in Maryland reported: *"The area received showers amounting to .15 to .4 inches of rain...enough to help with pasture grasses, fall seed bed preparation and seeding."*

Hay supplies were primarily adequate in Delaware and Maryland. Pasture conditions for both Delaware and Maryland were fair. Soybeans were rated mostly fair in both States, though reports did vary widely from very poor to good. The third cutting of alfalfa hay in Maryland was nearly complete at 99 percent and the fourth cutting had reached 55 percent. The third cutting of alfalfa hay in Delaware is complete and the fourth cutting is at 22 percent. For other hay, the third cutting was at 94 percent in Delaware and 82 percent in Maryland. The fourth cutting of other hay was 35 and 17 percent, respectively, for Delaware and Maryland. In Delaware, corn for grain is nearly mature at 99 percent. Maryland's corn for grain crop was 96 percent dent and 89 percent mature. Corn harvested for grain was 47 percent in Delaware and 48 percent in Maryland. Corn harvested for silage was 74 percent in Delaware and 90 percent in Maryland. Over 50 percent soybean crop in both States has turned color and 20 percent have dropped leaves in Delaware and 30 percent in Maryland. Soybean harvest has just begun in Maryland at 3 percent. Planting of barley and winter wheat has begun in both States with Delaware at 7 percent planted for both barley and winter wheat. Maryland reported 13 percent planted for barley and 9 percent for winter wheat. Peach harvest has ended in both States with good quality reported. Apple harvest is over 50 percent complete in both States with mostly good quality. Fresh market vegetable harvest is winding down with all major vegetable commodities nearly complete in both States. Harvest of processing lima beans was 73 and 67 percent complete in Delaware and Maryland, respectively.
