Released November 3, 2014

**Excellent Week for Field Work:** Both Maryland and Delaware had 6.0 days suitable for field work. In Delaware Winter wheat planting is still behind schedule but pick up speed as weather permits; apple harvested and corn for silage are both complete as schedule. In Maryland Winter wheat and Barley planting are coming along well but still behind schedule compare to last year and the five year percentage average. Soybean harvest behind nine percent average compare to last year harvest in Maryland and twenty three percent average behind schedule in Delaware.

Temperatures for this week will range from the high 60's to the high 40's. Friday expect high windy condition with about 16 mph coming from the West North West in some part of the region. Shower expected on Thursday with 99% chance. Field activities should continue to include harvesting soybeans and corn for grain and planting winter wheat and barley.

### MD Moisture for Week Ending November 2nd, 2014 (100% total)

## REPORTERS COMMENTS, By County

*Reporters are from Extension Service (Ext), Natural Resources Conservation Service (NRCS), Farm Service Agency (FSA), Conservation District (CD), farmers, commodity specialists, or other knowledgeable individuals.*

### **Kent County, DE – Maryann Reed**

Farmers currently harvesting soybeans and corn for grain, additionally planting Winter wheat and Barley

### **Sussex County, DE – John Timmons**

Soybean harvest is in full swing

### **Baltimore County, MD – David Martin**

Some parts of the county have not had a killing frost this past week

### **Montgomery & Howard Counties, MD - Charles Schuster**

0.25 inches of rain fell during the reporting period. Temperatures varied greatly during this period also. High temperatures near 70 degrees F with lows into the mid 30 degree F were recorded. Windy conditions have kept soils in good condition for field work. Wheat planting is almost complete in this region. Also apples are finished for the season.
