FLORIDA: Hatcheries placed 2,486,000 broiler chicks with producers during the week ending December 30, 2000. Placements were seventeen percent above the previous week and four percent above the comparable week of the year before.

Florida's placements during the last six weeks were thirteen percent below the comparable six-week period of the previous year. Placements since January 1, 2000 were estimated at 120,829,000 chicks, a decrease of four percent compared to the same period in the previous year.

UNITED STATES: Commercial hatcheries placed 138,807,000 chicks with producers in the 15 major broiler States during the week ending December 30, 2000.

Chick placements were four percent below the previous week and four percent below the comparable week of the previous year.

During the 6-week period, total chicks placed were 849,974,000, one percent below the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,340,000 broiler chicks with producers during the week ending January 20, 2001. Placements were three percent below the previous week but seven above the comparable week of the year before.

Florida's placements during the last six weeks were slightly below the comparable six-week period of the previous year. Placements since January 1, 2001 were estimated at 6,776,000 chicks.

UNITED STATES: Commercial hatcheries placed 142,237,000 chicks with producers in the 15 major broiler States during the week ending January 20, 2001.

Chick placements were one percent below the previous week and slightly below the comparable week of the previous year.

During the 6-week period, total chicks placed were 856,087,000, one percent below the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,236,000 broiler chicks with producers during the week ending January 27, 2001. Placements were four percent below the previous week and sixteen percent below the comparable week of the year before.

Florida's placements during the last six weeks were slightly two percent below the comparable six-week period of the previous year. Placements since January 1, 2001 were estimated at 9,012,000 chicks.

UNITED STATES: Commercial hatcheries placed 143,997,000 chicks with producers in the 15 major broiler States during the week ending January 27, 2001.

Chick placements were one percent above the previous week but one percent below the comparable week of the previous year.

During the 6-week period, total chicks placed were 855,758,000, one percent below the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,049,000 broiler chicks with producers during the week ending February 17, 2001. Placements were six percent below the previous week and twenty four percent below the comparable week of the year before.

Florida's placements during the last six weeks were five percent below the comparable six-week period of the previous year. Placements since January 1, 2001 were estimated at 15,544,000 chicks.

UNITED STATES: Commercial hatcheries placed 141,284,000 chicks with producers in the 15 major broiler States during the week ending February 17, 2001.

Chick placements were one percent below the previous week and one percent below the comparable week of the previous year.

During the 6-week period, total chicks placed were 859,362,000, one percent below the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,353,000 broiler chicks with producers during the week ending March 3, 2001. Placements were three percent below the previous week but five percent above the comparable week of the year before.

Florida's placements during the last six weeks were six percent below the comparable six-week period of the previous year. Placements since January 1, 2001 were estimated at 20,331,000 chicks.

UNITED STATES: Commercial hatcheries placed 143,973,000 chicks with producers in the 15 major broiler States during the week ending March 3, 2001.

Chick placements were one percent above the previous week and two percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 859,631,000, slightly below the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,400,000 broiler chicks with producers during the week ending March 17, 2001. Placements were slightly below the previous week and six percent below the comparable week of the year before.

Florida's placements during the last six weeks were five percent below the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 25,139,000 chicks.

UNITED STATES: Commercial hatcheries placed 149,104,000 chicks with producers in the 15 major broiler States during the week ending March 17, 2001.

Chick placements were two percent above the previous week and one percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 866,529,000, one percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,195,000 broiler chicks with producers during the week ending May 26, 2001. Placements were eight percent below the previous week and three percent below the comparable week of the year before.

Florida's placements during the last six weeks were two percent below the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 48,598,000 chicks.

UNITED STATES: Commercial hatcheries placed 149,570,000 chicks with producers in the 15 major broiler States during the week ending May 26, 2001.

Chick placements were slightly above the previous week and one percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 894,694,000, one percent below the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,486,000 broiler chicks with producers during the week ending June 16, 2001. Placements were one percent above the previous week and 14 percent above the comparable week of the year before.

Florida's placements during the last six weeks were one percent above the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 56,019,000 chicks.

UNITED STATES: Commercial hatcheries placed 153,131,000 chicks with producers in the 15 major broiler States during the week ending June 16, 2001.

Chick placements were one percent slightly above the previous week and three percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 903,849,000, one percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,527,000 broiler chicks with producers during the week ending July 7, 2001. Placements were five percent above the previous week and nine percent above the comparable week of the year before.

Florida's placements during the last six weeks were one percent above the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 63,162,000 chicks.

UNITED STATES: Commercial hatcheries placed 150,615,000 chicks with producers in the 15 major broiler States during the week ending July 7, 2001.

Chick placements were slightly above the previous week and two percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 906,751,000, one percent below the comparable six-week period of one year ago.

FLORIDA: Hatcheries placed 2,280,000 broiler chicks with producers during the week ending July 28, 2001. Placements were two percent below the previous week and three percent below the comparable week of the year before.

Florida's placements during the last six weeks were three percent below the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 70,045,000 chicks.

UNITED STATES: Commercial hatcheries placed 146,684,000 chicks with producers in the 15 major broiler States during the week ending July 28, 2001.

Chick placements were one percent below the previous week but two percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 889,432,000, two percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,518,000 broiler chicks with producers during the week ending August 18, 2001. Placements were five percent below the previous week but eight percent above the comparable week of the year before.

Florida's placements during the last six weeks were slightly below the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 77,280,000 chicks.

UNITED STATES: Commercial hatcheries placed 144,963,000 chicks with producers in the 15 major broiler States during the week ending August 18, 2001.

Chick placements were two percent below the previous week but two percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 879,296,000, three percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,299,000 broiler chicks with producers during the week ending September 8, 2001. Placements were six percent below the previous week but slightly above the comparable week of the year before.

Florida's placements during the last six weeks were four percent above the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 84,402,000 chicks.

UNITED STATES: Commercial hatcheries placed 146,572,000 chicks with producers in the 15 major broiler States during the week ending September 8, 2001.

Chick placements were one percent above the previous week and one percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 883,064,000, three percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,065,000 broiler chicks with producers during the week ending October 13, 2001. Placements were six percent below the previous week and 11 percent below the comparable week of the year before.

Florida's placements during the last six weeks were one percent below the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 95,359,000 chicks.

UNITED STATES: Commercial hatcheries placed 143,485,000 chicks with producers in the 15 major broiler States during the week ending October 13, 2001.

Chick placements were four percent above the previous week and six percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 863,626,000, three percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,309,000 broiler chicks with producers during the week ending November 3, 2001. Placements were 13 percent above the previous week and 18 percent above the comparable week of the year before.

Florida's placements during the last six weeks were three percent below the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 101,919,000 chicks.

UNITED STATES: Commercial hatcheries placed 140,604,000 chicks with producers in the 15 major broiler States during the week ending November 3, 2001.

Chick placements were four percent below the previous week but three percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 855,556,000, four percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 2,516,000 broiler chicks with producers during the week ending November 24, 2001. Placements were 13 percent above the previous week and forty percent above the comparable week of the year before.

Florida's placements during the last six weeks were five percent above the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 108,749,000 chicks.

UNITED STATES: Commercial hatcheries placed 139,149,000 chicks with producers in the 15 major broiler States during the week ending November 24, 2001.

Chick placements were five percent above the previous week and three percent above the comparable week of the previous year.

During the 6-week period, total chicks placed were 838,484,000, three percent above the comparable six-week period one year ago.

FLORIDA: Hatcheries placed 1,927,000 broiler chicks with producers during the week ending December 15, 2001. Placements were 24 percent below the previous week and ten percent below the comparable week of the year before.

Florida's placements during the last six weeks were nine percent above the comparable six week period of the previous year. Placements since January 1, 2001 were estimated at 115,342,000 chicks.

UNITED STATES: Commercial hatcheries placed 146,869,000 chicks with producers in the 15 major broiler States during the week ending December 15, 2001.

Chick placements were slightly below the previous week but one percent below the comparable week of the previous year.

During the 6-week period, total chicks placed were 847,388,000, three percent above the comparable six-week period one year ago.
