Number of hired workers down 9 percent

Hawaii's agricultural hired work force totaled 6,400 during the October 7-13, 2007 survey week, down 9 percent from a year ago. Diversified agricultural workers accounted for 82 percent of all farm labor and at 5,250 workers, it was down 3 percent from October 2006. Pineapple and sugarcane workers totaled 1,150 workers (does not include mill or cannery workers) during the October 7-13, 2007 survey week, down 28 percent from October 2006.

Average wage rate up 6 percent

The average wage paid to all hired workers during the October survey period was a record-high \$13.19 per hour, 72 cents higher than October 2006. The combined average wage for field and livestock workers also reached a new record high at \$11.13 per hour, up 44 cents from October 2006.

Hawaii farms employing from 1 to 9 workers paid an average of \$11.39 per hour for all hired workers, while the combined average wage for field and livestock workers was \$10.49 an hour. ■

U.S. hired workers up 3 percent from a year ago

There were 1,122,000 hired workers on the Nation's farms and ranches during the week of October 7-13, 2007, up 3 percent from a year ago. Of these hired workers, 806,000 workers were hired directly by farm operators. Agricultural service employees on farms and ranches made up the remaining 316,000 workers.

Farm operators paid their hired workers an average wage of \$10.33 per hour during the October 2007 reference week, up 37 cents from a year earlier. Field workers received an average of \$9.62 per hour, up 36

cents from last October, while livestock workers earned \$9.98 per hour compared with \$9.42 a year earlier. The field and livestock worker combined wage rate, at \$9.72 per hour, was up 42 cents from last year.

The number of hours worked averaged 42.1 hours for hired workers during the survey week, up fractionally from a year ago. ■
