## Sugarcane Production Up 8 Percent

Production of sugarcane for sugar and seed in 2011 is revised to 1.3 million tons, up 8 percent from the 2010 estimate. Area harvested for sugar and seed is revised to 16,600 acres, down 800 acres from the previous year. Yield for sugar and seed is estimated at 80.2 tons per acre, up 8.6 tons per acre from 2010.

Production of sugarcane for sugar is revised to 1.2 million tons, up 8 percent from 2010. Area harvested for sugar production totaled 15,100 acres, down 400 acres from the previous year estimate. Yield of sugarcane for sugar is revised to 85.2 tons per acre, up 8.1 tons per acre from 2010. ■

## U.S. Floriculture

### Production from Operations with Sales of \$100,000 or More Down 1 Percent from 2010

Total Wholesale Value: The total wholesale value of floriculture crops sold by operations with \$100,000 or more of sales in the 15-State program is \$3.94 billion for 2011, down 1 percent from the revised 2010 total. These operations account for 96 percent of the total value of \$4.08 billion in floriculture crops, but comprise only 44 percent of all producers. California accounts for 25 percent of the total wholesale value in the 15-States. Florida ranks second with 21 percent; while Michigan ranks third with 9 percent, and Texas and North Carolina round out the top 5 accounting for 6 percent each. ■

### 2011 Wholesale Value of Floriculture Crops Decreased 2 Percent

The 2011 wholesale value of floriculture crops is down 2 percent from the revised 2010 valuation. The total crop value at wholesale for the 15-State program for all growers with \$10,000 or more in sales is estimated at \$4.08 billion for 2011, compared with \$4.15 billion for 2010. California continues to be the leading State with crops valued at \$1.01 billion, down slightly from the 2010 value. Florida, the next largest producer is up 1 percent from the prior year to \$835 million in wholesale value. These two States account for 45 percent of the 15-State total value. For 2011, the top 5 States are California, Florida, Michigan, Texas, and North Carolina, which account for \$2.73 billion, or 67 percent, of the 15-State total value. ■

<sup>1</sup> Wholesale value of sales as reported by operations with \$100,000 or more in sales of floriculture crops plus a calculated wholesale value of sales for operations with sales below \$100,000. The value of sales for producers below the \$100,000 level was estimated by multiplying the number of producers in each size group by the mid-point of the sales range.
