Illinois farm production expenditures totaled 16.8 billion dollars in 2017, up six percent from the previous year. The items that showed the largest year-to-year increase were Farm Improvements, up $210 million, and Tractors and Self-Propelled Farm Machinery, up $220 million. On a per-farm basis, the largest expense in 2017 was Rent, at slightly more than $50,000 per farm.

The staff of the Heartland Regional Field office would like to thank all of the farmers and ranchers that responded to the Agricultural Resource Management Survey. Your individual responses are always confidential, by law, but they contribute to the state totals which are important to the agricultural community.

Terms and Definitions

**Agricultural chemicals**: This expense line item includes material and application costs.

**Average per farm**: The average per farm is computed by dividing the line-item total expense by the total number of farms at that level (United States, region, type, economic class, or state).

**Expense line items**: All expense line items include the operator, landlord, and contractor shares of farm production expenses.
**Farm improvements and construction**: Includes all expenditures related to new construction or repairs of buildings, fences, operator dwelling (if dwelling is owned by operation), and any improvements to physical structures of land.
