USDA to gather data about farm labor

Springfield, IL – March 2023 – USDA’s National Agricultural Statistics Service (NASS) will conduct its biannual Agricultural Labor Survey in April. The survey will collect information about hired labor from more than 500 Illinois farmers and ranchers. NASS will publish the results May 24 in the Farm Labor report available on the NASS website at nass.usda.gov/Publications. Survey recipients who do not respond by April 19 may be contacted by NASS to arrange an interview.

Average Yearly Wage Rates (\$/hr)		
CORN BELT I (IL, IN, OH)	2021	2022
All Hired Workers	16.61	17.87
Livestock Workers	15.38	16.11
Field & Livestock Workers	15.89	17.17
Field Workers	16.08	17.60

In the survey, NASS asks producers to answer a variety of questions about hired farm labor on their operations, including total number of hired farm workers, total hours worked, and total wages paid for the weeks of Jan. 8-14 and April 9-15, 2023. Survey recipients can respond online at agcounts.usda.gov or by mail.

“Agricultural labor data are critical for producers when hiring workers and estimating expenses,” said Mark Schleusener, NASS’s Illinois state statistician. “The data that farm operators provide through NASS’s Agricultural Labor Survey also allow federal policymakers to base farm labor policies on accurate information.”

USDA and the U.S. Department of Labor use the survey data to estimate the demand for and availability of seasonal agricultural workers, establish minimum wage rates for agricultural workers and administer farm labor recruitment and placement service programs.

“By asking about two separate time periods each time we collect these data during the year, we are able to publish biannual data and capture seasonal variation,” said Schleusener. “This approach reduces the number of times we survey farms in Illinois, while ensuring that accurate and timely data are available.”

Producers are encouraged to visit youtu.be/6oWSOjGTQzU for further information on and assistance with completing this survey. All previous Farm Labor publications are available on the NASS website at nass.usda.gov/publications/publications. For more information, contact the NASS Heartland Regional Field Office at (800) 551-1014 or nassrfohlr@usda.gov.
