

# COUNTY HIGHLIGHTS

## COUNTY HIGHLIGHTS

The following pages of county statistics represent the results of a survey of over 11,000 farm operators following the 2008 harvest season. In addition to these data are selected items of interest from the U.S. Population Census, 2007 Census of Agriculture, and 2007 Cash Receipts information from the Bureau of Economics Analysis. The County Highlights section summarizes the importance of agriculture to each and every Indiana county while comparing the magnitude of importance across counties.

Planted acreage for hay is represented by three dashes because this category is not estimated, planted acreage and yield for popcorn are represented by three dashes because these categories are not surveyed; in all other places the three dashes represent zero for that county. An asterisk signifies that the county has data for this item, but it cannot be disclosed for confidentiality purposes. The 2007 Chicken data from Census includes only layers twenty weeks old and older.

Below is a list of comparable items at the state level.

## STATE DATA

2007 Census Population	6,335,862	2007 Cash Receipts	\$8,075,225,000
2007 Total Land Area (acres)	22,924,685	Crop Receipts	\$5,302,773,000
