2012 CENSUS OF AGRICULTURE
YOUR VOICE. YOUR FUTURE. YOUR RESPONSIBILITY.

The Census of Agriculture is a complete count of America's farms and ranches and the people who operate them. Taken every five years, the Census provides valuable information used at the local, state, and national level to plan for the future.

USDA will mail the 2012 Census of Agriculture in late December 2012. Your response to the Census of Agriculture is required and protected by law (Title 7, U.S. Code, and CIPSEA, Public Law 107-347).

Your response provides information needed for agricultural planning and decisionmaking. Farmers, ranchers, agri-businesses, lenders, agricultural organizations, policy-makers, and many others use the information to make decisions on facility locations, crop insurance rates, conservation programs, and marketing that can benefit you, your industry, and your community.

**The Census is your voice, your future, and your responsibility.
