

Indiana Crop Weather

IN-CW2420

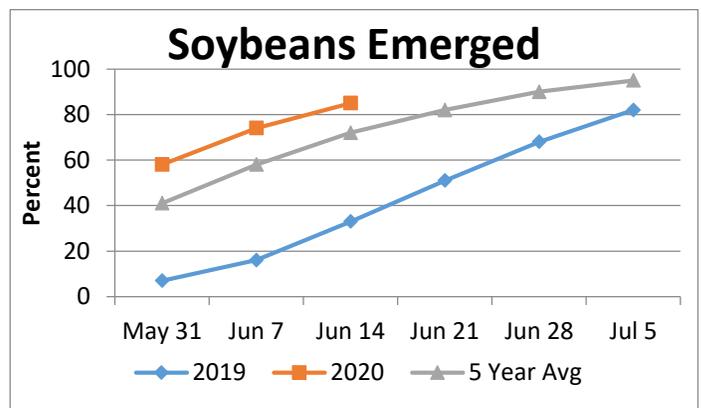

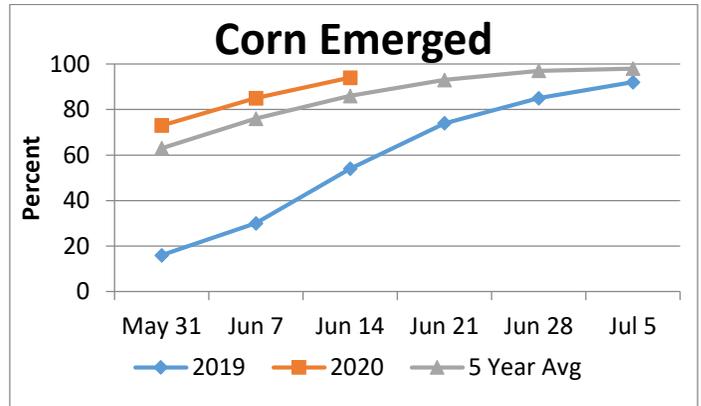

June 15, 2020

Planting Nears Completion

Another dry week allowed for plenty of fieldwork but left many parts of the State yearning for rain, according to USDA NASS, Great Lakes Regional Field Office. Soil moisture levels decreased again from the previous week.

The average temperature for the week was 71.1 degrees Fahrenheit, 0.8 degrees above normal for the State. The amount of rainfall varied from none to 1.25 inches over the week. The statewide average precipitation was 0.38 inches. There were 6.0 days suitable for fieldwork for the week ending June 14.

Corn and **soybean** planting neared completion last week, as growers focused on areas needing replanting. **Winter wheat** conditions remained stable and crop progress continued more or less on schedule, with early reports of **winter wheat** harvest starting in some areas. The first cutting of hay pushed closer to completion, thanks to the warm, dry weather last week. Livestock were reported to be doing well, and spring calving has all but wrapped up. Other activities for the week included fertilizer applications, spraying herbicides, and mowing roadsides.

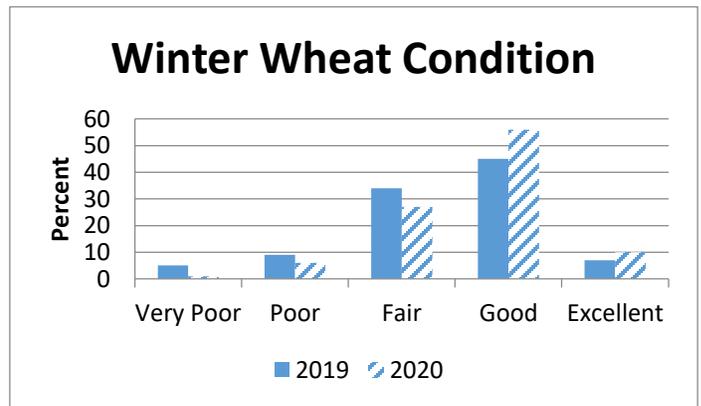

Soil Moisture: Week Ending 06/14/20

Item	Very short	Short	Adequate	Surplus
	(percent)	(percent)	(percent)	(percent)
Topsoil moisture	4	25	67	4
Subsoil moisture	3	19	72	6

Crop Condition: Week Ending 06/14/20

Crop	Very poor	Poor	Fair	Good	Excellent
	(percent)	(percent)	(percent)	(percent)	(percent)
Corn	2	6	26	56	10
Soybeans	2	5	26	57	10
Winter Wheat	1	6	27	56	10
Range and Pasture...	2	7	26	55	10

Crop Progress: Week Ending 06/14/20

Crop/Activity	Percent Completed			
	This week	Last week	Last year	5 Year average
Days Suitable for Fieldwork	6.0	5.6	NA	NA
