Volume 10 No. 07

### Forecasted Kansas Winter Wheat Production Up 5 Percent from June

The 2010 Kansas **wheat** crop is forecast at 369.0 million bushels as of July 1, up 5 percent from the June 1 forecast, but down less than 1 percent from the 2009 crop. The current crop is projected to be harvested from 8.2 million acres, down 600,000 acres from a year ago. Yield per harvested acre is expected to average 45 bushels, up 2 bushels from the June forecast and up 3 bushels from the 2009 final yield. If realized, this would be the highest yield since 2003 and the fifth highest yield on record.

Warm temperatures and mostly dry conditions the last week of June allowed wheat harvest to increase to 55 percent complete by June 27th compared to 10 percent the

week before. Wheat condition remained near 56 percent good to excellent the entire month.

**Oats** planted in 2010, at 70,000 acres, is down 18 percent from last year. Oats forecasted to be harvested for grain, at 30,000 acres, is down 14 percent from the previous year. Oat production is forecast at 1.47 million bushels, down 21 percent from last year. Yield is expected to average 49 bushels per acre, down 4 bushels per acre from last year's yield of 53 bushels per acre.

### U.S. Winter Wheat Production Up 2 Percent from June

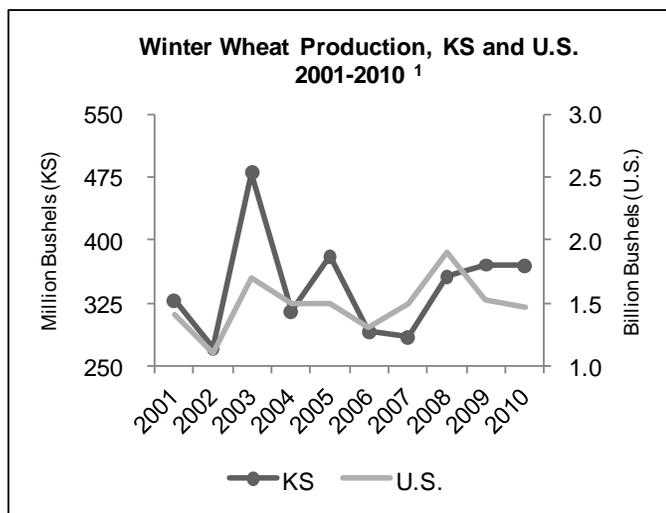

**Winter wheat** production is forecast at 1.51 billion bushels, up 2 percent from last month but down 1 percent from 2009. The United States yield is forecast at 46.9 bushels per acre, up 0.3 bushel from last month and up 2.7 bushels from last year. If realized, this will be tied for the third highest yield on record, trailing only 1999 and 2008. The area expected to be harvested for grain totals 32.1 million

acres, unchanged from the *Acreage* report released on June 30, 2010 but down 7 percent from last year.

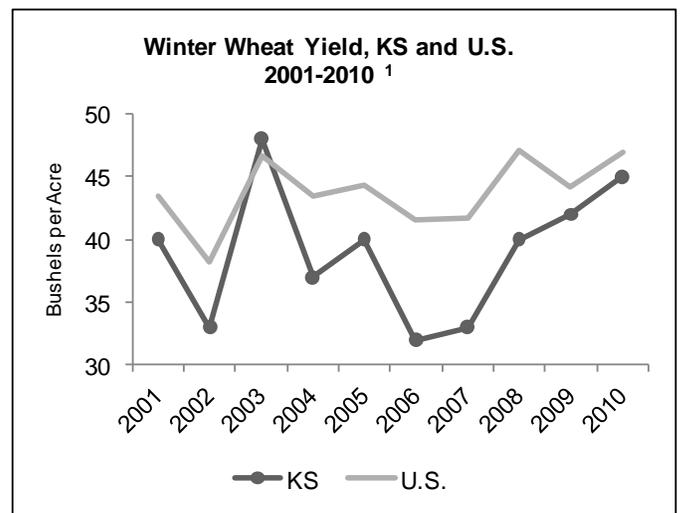

Hard Red Winter, at 1.01 billion bushels, is up 3 percent from a month ago. Soft Red Winter, at 268 million bushels, is down 6 percent from the previous forecast. White Winter is up 3 percent from last month and now totals 226 million bushels. Of this total, 17.8 million bushels are Hard White and 208 million bushels are Soft White.
