## Weekly Crop and Weather Report

CW1209

06/22/2009

### Rainy, Cool Weather Continued

For the week ending, June 21, 2009, the days suitable for fieldwork were **3.3** days in Delaware and **3.0** days in Maryland. Soil moistures reported adequate to surplus in Delaware and Maryland. One crop reporter commented *“Rain has slowed down many production activities. There are many fields that are not planted yet or need replanting.”*

**Hay supplies** remained at adequate in Delaware and Maryland from previous week. Continued wet conditions hindered farmers from harvesting first and second cuttings of hay during the week. **Corn** planted set at 99 percent of the crop in the ground for Delaware and 96 percent for Maryland. Some reports of corn damage from hail storms during the week. Some reports of corn planted in low areas are too wet, while high grounds were okay. Corn emerged reached 97 percent in Delaware and 92 percent in Maryland. **Soybeans** planting progressed with 66 and 56 percent of the crop in the ground for Delaware and Maryland, respectively. Soybeans emerged reached 42 percent in Delaware and 47 percent in Maryland. **Apples** conditions remained good in Delaware and Maryland. Early **strawberry** harvest reached 98 and 97 percent in Delaware and Maryland, respectively. **Small grains** conditions were reported fair-to-good in Delaware and good in Maryland with harvesting underway. **Barley** harvested reached 36 and 63 percent in Delaware and Maryland, respectively. **Winter wheat** turned reached 98 percent in Delaware and 90 percent in Maryland. Some reports of wheat and barley damaged over the weekend due to hail storm. **Pasture** conditions continued good in Delaware and good-to-excellent in Maryland from last week.
