Renville County was the highest-ranking county for corn for grain production with 52.9 million bushels produced. Martin (45.7 million), Redwood (44.7 million), Mower (43.5 million), and Faribault (42.8 million) rounded out the top five counties with the highest production. Counties with production of more than 35 million bushels were Jackson, Freeborn, Blue Earth, Nobles, and Cottonwood.

Martin led all counties with an average yield of 224.9 bushels per acre. Dodge (221.5), Blue Earth (219.8), Mower (218.0), and Steele (217.3) counties rounded out the top five. Twenty-three counties surpassed the 200 bushel mark in 2022.

Yields are calculated by dividing a county's production by its area harvested. Only published estimates were considered in rankings of counties.
