Comments from Cooperative Extension Service County Agents

“Some of our soybean producers were still a little behind on soybean plantings as of last week, but decent weather should have enabled them to catch up. Saw lots of first cutting hay being put up on last week also.”

-Lemon Ray Phelps, Marshall County

“Soil moisture is low and rain is needed. Last of soybeans behind wheat should be planted by end of the week. Weed control and some insect control were the main activities this week.”

-Dr. Bill Burdine, Union County

“It was a dry week. Producers have been able to get into their fields for much needed work.”

- Suzanne “Marie” Rogers, Itawamba County

“Weather has turned hot and dry. Corn and early planted soybeans are being irrigated. Crops look relatively good, but we definitely need some rain in the near future.”

- Preston Aust, Humphreys County
