Mississippi hatcheries set 16.3 million broiler-type eggs during the week ending March 27, 2021, down 11 percent from the comparable week in 2020 but up slightly from the previous week.

Hatcheries in the United States weekly program set 239 million eggs in incubators during the week ending March 27, 2021, down slightly from a year ago.

Mississippi broiler-type chicks placed for meat production were 14.3 million chicks during the week ending March 27, 2021, down 6 percent from the comparable week in 2020 but up 3 percent from the previous week.

Broiler growers in the United States weekly program placed 188 million chicks for meat production during the week ending March 27, 2021, down 2 percent from a year ago.

This report contains the results from the Weekly Broiler Hatchery Report. These data are also posted on our web site at https://www.nass.usda.gov/ms and in a more detailed report at https://www.nass.usda.gov. Thanks to all who responded to this survey.
