## USDA SURVEYING CATFISH OPERATIONS

**Jackson, MS** – In January, the U.S. Department of Agriculture’s National Agricultural Statistics Service (NASS) will survey catfish operations nationwide to provide an up-to-date measure of U.S. catfish inventories, sales, and water acreage used for production.

“NASS surveys catfish producers in January to create an accurate estimate of catfish inventories and sales in Mississippi and the Nation,” said Esmerelda Dickson, State Statistician, Mississippi State Office, Delta Region. In Mississippi, NASS will survey approximately 160 catfish farmers in January asking them to provide the total water area and inventory breakdown of its usage into subcategories (broodfish, foodsize, and fingerlings), as well as sales for 2020.

Producers are asked to use their unique survey code to complete the catfish survey online via NASS’ secure website. The online questionnaire is user friendly, accessible on most electronic devices, and saves producers valuable time by calculating totals and automatically skipping questions that don’t apply to their operations. NASS also offers the option of responding via telephone interview with a local NASDA representative or mail.

The *Catfish Production* report will be released on February 8, 2021 at 3:00 pm ET. This and all NASS reports are available online at [www.nass.usda.gov/Publications](http://www.nass.usda.gov/Publications). For more information, call the NASS Delta Regional Office at (800) 327-2970.

###

NASS is the federal statistical agency responsible for producing official data about U.S. agriculture and is committed to providing timely, accurate and useful statistics in service to U.S. agriculture.

USDA is an equal opportunity provider, employer and lender.
