

Missouri Agricultural Prices

Released March 30, 2015

The February Prices Received Index (Agricultural Production), at 100, based on 2011=100, increased 3 points (3.1 percent) from January. At 85, the February Crop Production Index is up 2 points (2.4 percent). At 115, the Livestock Production Index decreased 5 points (4.2 percent). Producers received higher prices for eggs, tomatoes, oranges, and hay but lower prices for broilers, cattle, hogs, and lettuce. In addition to prices, the indexes are impacted by the five-year average monthly mix of commodities producers market. Increased monthly movement of cattle, milk, broilers, and hogs offset the decreased marketing of soybeans, corn, and wheat.

Prices Received Indexes – United States: February 2015 with Comparisons

Index	2011 Base		
	Feb 2014	Jan 2015	Feb 2015
