

Missouri Agricultural Prices

Released July 30, 2015

The June Prices Received Index (Agricultural Production), at 105, decreased 1.9 percent from May. At 88, the Crop Production Index decreased 2.2 percent. The Livestock Production Index, at 121, decreased 0.8 percent. Producers received lower prices for cattle, broilers, and hay but higher prices for eggs, onions, and lettuce. In addition to prices, the indexes are impacted by the five-year average monthly mix of commodities producers market. Increased monthly movement of wheat, hay, grapes, and peaches offset the decreased marketing of cattle, strawberries, milk, and oranges.

Prices Received Indexes – United States: June 2015 with Comparisons

| Index | 2011 Base | | |
|-------------------------------|-----------|----------|----------|
| | Jun 2014 | May 2015 | Jun 2015 |
