

Missouri Agricultural Prices

Released November 30, 2015

The October Prices Received Index (Agricultural Production), at 89, decreased 9.2 percent from September. At 80, the Crop Production Index decreased 8.0 percent. The Livestock Production Index, at 104, decreased 4.6 percent. Producers received lower prices for cattle, market eggs, lettuce, and broilers but higher prices for sweet corn, milk, strawberries, and hogs. In addition to prices, the indexes are influenced by the monthly mix of commodities producers market. Increased monthly movement of soybeans, corn, cotton, and calves offset the decreased marketing of cattle, milk, broilers, and wheat.

Prices Received Indexes – United States: October 2015 with Comparisons

Index	2011 Base		
	Oct 2014	Sep 2015	Oct 2015
