

# Missouri Agricultural Prices

Released November 30, 2023

The October Prices Received Index 2011 Base (Agricultural Production), at 114.1, decreased 6.3 percent from September and 11 percent from October 2022. At 104.0, the Crop Production Index was down 7.6 percent from last month and 14 percent from the previous year. The Livestock Production Index, at 133.5, increased 0.3 percent from September, but decreased 4.1 percent from October last year. Producers received lower prices for corn, hogs, soybeans, and apples but higher prices during October for milk, calves, cattle, and dry beans. In addition to prices, the volume change of commodities marketed also influences the indexes. In October, there was decreased marketing of cattle, milk, broilers, and wheat and increased monthly movement for soybeans, corn, cotton, and calves.

## Prices Received Indexes – United States: October 2023 with Comparisons

Index	2011 Base		
	Oct 2022	Sep 2023	Oct 2023
