

U.S. American Indian Agriculture at a Glance

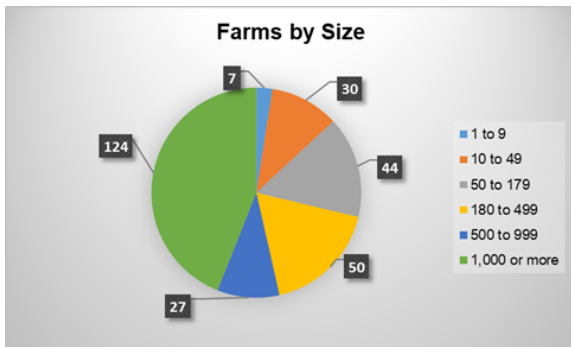

The 2017 Census of Agriculture shows us that U.S. farmers and ranchers are becoming more diverse and that the number of American Indian or Alaska Native farm operators continues to rise.

The 2017 Census counted a total of 71,947 American Indian or Alaska Native operators on 56,092 farms and ranches across the United States.

When compared to all farms nationwide, those with American Indian or Alaska Native principal operators tend to be smaller in terms of sales but significantly larger in size. These operations are also less likely to have Internet access.
